Learn bicycle safety and how
to repair your own bike

SPRING BICYCLE DRIVE

Join Boy Scout Troop 14 at Cossitt Avenue School playground in LaGrange for our Spring Bicycle Drive and Fundraiser to benefit two groups that bring affordable, healthy and environmentally responsible transportation to both youth and adults in a safe environment here in Chicago.

The organizations that our troop's efforts will support are We Role Cycle Works and Growing Power Farms Chicago. For each bicycle you donate, we are also requesting a \$10 donation to cover some of the associated repair expense. We will also be collecting tools and T-shirts that will be used in bicycle repair classes and as rags at the We Role bike shops to repair these bikes.

Your old bicycle, tools and T-shirts will provide much needed transportation to individuals participating in the after-school and job training programs offered by our partners.
